

AUNGLES FLUTE MICROPHONE

The Aungles Flute Microphone, the quickest and simplest way to amplify a flute.

Ready to use in 30 seconds

Like all good ideas it is simple.

Undo your flute screw top and screw in the Aungles Flute n-microphone.

The features of the Aungles Flute Mic

It is quick and easy to install and remove.

There is no key noise amplified unlike other pick-ups which are
installed inside the headjoint or replace the headcork.

The microphone can be used on flutes, alto flutes, bass flutes and
piccolos using the adaptor supplied.

You are free to move without any loss of sound level from the microphone.

The arm of the microphone is adjustable 360° to allow a variety of microphone positions.

The microphone is cheaper, more compact and easier to use than a stand and boom microphone.
It is quick and easy, its simply the best flute microphone package available.

The ultimate present for the flute player who has everything.

The Aungles Flute Microphone is attractively labelled and packaged in a strong box and the microphone comes with clear and concise instructions. The microphone is mounted on a unique patented flute microphone holding system and beautifully finished with an African Blackwood crown(screw top) and brass thread. The microphone holder is made from filament wound wire which is stiff yet flexible and made to last.

Contents

Aungles flute microphone holder, microphone (mounted on holder)
microphone wind sock, battery, 1/8" to 1/4" plug adaptor, alto/bass flute adaptor,
Aungles Flute microphone manual/instruction sheet and a box with a sleeve.

Made in AUSTRALIA by Aungles Flute Microphones Patent number PK 5830

AUNGLES FLUTE MICROPHONE

Aungles Flute Microphone applications

It is ideal for **flute & guitar**, **flute and harp** or **flute and piano** duos. The Aungles Flute Microphone is great for **busking** and is excellent for amplifying the sound of the flute when playing with other loud instruments in **jazz** bands. The Aungles Flute Microphone can be used by flute players **for church services** where modern electric instruments are used or large modern church buildings require the use of amplification. The Aungles Flute Microphone is ideal for home **recording** systems or digital recording through your computer. Make your own **demonstration tapes**. Use the microphone as a **teaching tool** to record you or your students. The microphone provides a constant reliable sound level no matter where the player stands. Overcome the problems of poor playback quality when using microphones built into portable cassette players. The Aungles Flute Microphone is also **compatible with** many **wireless radio transmitter** sound systems which allow flute players the total freedom to move.

Professional model

For the professional flautist the Aungles Flute Microphone professional model meets the exacting standards required for connection to a three pin plug system (XLR plug) used in the sound and amplification industry and professional sound systems. The Leon Audio condenser microphone features a *power on* LED light with all the components for the microphone housed within the microphone's XLR plug connector. The *power on* LED indicates when phantom power is present.

Optional extras phantom power 9 volt battery pack for use where phantom power is not supplied. Mains supply power unit for use where phantom power is not supplied
